Dear Oleksiy,
Thank you again for the time and effort you put into the assignment—it truly stood out.

Your work was exceptional: the attention to detail, the high quality of the code, and most importantly, your clear effort to understand the business context behind the task. It's genuinely one of the best submissions I've seen, and it's clear you have a strong product mindset.

I'd strongly encourage you to include this project in your portfolio if you'd like—we have no objections at all. It's a great showcase of your capabilities.

Personally, I'd be thrilled to work with someone like you in the future. I hope our paths cross again.

Wishing you all the best in your next steps,

•••
